

## HEAT RESISTANCE RANGE

# FAL HR400

Normative:	EN-ISO 20349:2010 S3+SRC+CI+HI+HRO+WG
Reference:	250141
Sizes:	37 a 46 EU
Height:	12.5 cm internally ( $\pm 5\%$ ) [Size 42]
Weight:	1.27 Kg/pair (APROX) [Size 42]

## TECHNICAL INFORMATION

## DESCRIPTION

Welding-resistant microfiber boots. VELCRO® Brand closure. Vincap non-metallic toe cap. Textile puncture resistant insole. Polyuretane midsole. SRC slip resistant nitrile rubber sole.

**Upper:** Microfiber, welding spatter resistant.

**Lining:** Synthetic fabric: high breathability and abrasion resistance. Foamed.

**Removable Insole:** Anatomic preformed with antibacterial treatment. It allows 30° washing and it is abrasion resistant.

**Sole:** Nitrile rubber sole with injected polyurethane midsole, with anti-slip reliefs.

**Protection toecap:** Composite (light, non-magnetic, thermally isolated, recovers form after normative impact).

**Protective Insole:** Non-metallic penetration resistant insole (High Tenacity Polyester).

**Closing system:** Velcro® closure band.

## FEATURES
